

NAME: Maniraj singh

STUDENT NUMBER: 250929807

MODULE CODE: CET 137

MODULE TITLE: Introduction To Programming

MODULE LEADER: Sandeep Pokharel

SUBMISSION DATE AND TIME: 20th March 2026

ASSIGNMENT: User Login System

Academic Misconduct is an offence under university regulations, and this involves:

- **Plagiarism** – where you use information from another information source (including your previously submitted work) and pass it off as your own. This can be through direct copying, poor paraphrasing and/or absence of citations.
- **Collusion** – where you work too closely, intentionally, or unintentionally, with others to produce work that is similar in nature. This can be through loaning of materials, drafts or through unauthorised use of a fellow student's work.
- **Asking another person to write your assignment** – where you ask another individual or company to complete your work for you, be that paid or unpaid, and submit it as if it were your own.
- **Unauthorised use of artificial intelligence** – where you use artificial intelligence tools to generate your assignment instead of completing it yourself and/or where you have not been given permission to use artificial intelligence tools by your module leader. Please complete the following declaration around your use of artificial intelligence tools in your assignment.

STATEMENT ON USE OF ARTIFICIAL INTELLIGENCE TOOLS:

• I have used artificial intelligence tools to generate an idea for my assignment:	YES
• I have used artificial intelligence tools to write my assignment for me:	NO
• I have used artificial intelligence tools to brainstorm ideas for my assignment:	YES
• I have used artificial intelligence tools to correct my original assignment:	NO

DECLARATION

- I understand that by submitting this piece of work I am declaring it to be my own work and in compliance with the university regulations on Academic Integrity.
- I confirm that I have done this work myself without external support or inappropriate use of resources.
- I understand that I am only permitted to use artificial intelligence tools in line with guidance provided by my Module Leader, and I have not used artificial intelligence tools outside this remit.
- I confirm that this piece of work has not been submitted for any other assignment at this or another institution prior to this point in time.
- I can confirm that all sources of information, including quotations, have been acknowledged by citing the source in the text, along with producing a full list of the sources used at the end of the assignment.
- I understand that academic misconduct is an offence and can result in formal disciplinary proceedings.
- I understand that by submitting this assignment, I declare myself fit to be able to complete the assignment and I accept the outcome of the assessment as valid and appropriate.

Flowchart: Flowchart is the pictorial representation of the step by step flow of the algorithm in a sequential manner. It helps a programmer to think and know how the program works. It contains the following symbols:

1. Oval – Start / End
2. Rectangle – Process
3. Diamond – Decision
4. Arrow – Flow

Unified Modelling Language (UML): UML stands for Unified modelling language is a type of visual diagram which helps a developer to understand, design and represent programs.

Class Diagram : A class diagram is type of UML diagram which visually represents the program structure, it contains mainly 3 sections Class, attribute and methods, and joined together by arrow showing relation between them.
